Technical Reference for

Electronic Data Exchange (EDE)

2003-2004

U.S. Department of Education

Table of Contents

EDE Processing 2-1

Record Layouts 3-1

Processing Codes 4-1

Overview

Preface

The *Electronic Data Exchange (EDE) Technical Reference* is designed to meet the reference needs of programmers and data processing staff.

The Department of Education (ED) provides two types of software to EDE participants:

- EDExpress for Windows software for processing student financial aid. Using EDExpress Financial Aid Administrators (FAAs) can enter and edit electronic initial FAFSAs and electronic corrections. They can create duplicate requests, track documents, student aid packages, originate loans, and track disbursements for Pell and Direct Loans, and send signature records for FAFSA on the Web, Renewal FAFSA on the Web, and Corrections on the Web applications.

- EDconnect software for sending and receiving electronic files.

Many EDE participants need specifications for these functions to develop their own software or to develop software bridges between their own systems and EDExpress.

This guide provides sufficient information for you to build your own software to complement or take the place of the software provided by ED for sending and receiving Free Application for Federal Student Aid (FAFSA) data. It includes information about record layouts, required edits, print assistance, and reject messages that are applicable for electronic FAFSAs, Institutional Student Information Records (ISIRs), electronic corrections, and signature records.

The EDE process is described in this section with additional information in the EDE Processing section. There are numerous references to the use of EDExpress software, so this guide is a useful reference tool because the processing steps remain essentially the same.

Header and Trailer Records

Each batch of electronic records for FAFSAs, corrections, duplicates, Type 2 Renewal Application Data (RAD) requests, Institutional Student Information Records (ISIRs), signature records, and Federal Data Requests (FDR) travels over the Student Aid Internet Gateway (SAIG) with a Header and Trailer Record for identification.

You should refer to the Record Layouts section for instructions on individual Header and Trailer Record layouts (refer to Header Record Sent To/Received From the CPS and Trailer Record Sent To/Received From the CPS).

Electronic FAFSA

An Electronic FAFSA begins with a signed Free Application for Federal Student Aid (FAFSA) that is completed by the student. The data is entered by the school, exported to create a file, formatted, and transmitted via the SAIG to the Central Processing System (CPS). Processed FAFSA Records are transmitted back to the school's destination point as ISIRs in separate message classes for FAFSAs called EAPS04OP.

The Record Layouts section includes information on record layouts including the FAFSA Application Export Record Layout (EAPS04IN). Reject codes are found in the Processing Codes section. How to handle rejected FAFSAs is located later in this section and in the EDE Processing section. The Printing section includes details on printing ISIRs.

Renewal FAFSA Process

Each year CPS creates a Renewal FAFSA for each student who is eligible to participate in the Renewal Application process. The Renewal FAFSA is a tremendous time-saver for students; it carries forward most of the data provided on the prior cycle's FAFSA. Students only update information that has changed and complete certain income and asset questions.

CPS automatically sends PIN mailers instead of paper Renewal FAFSAs to eligible applicants whose grade level in college equals fifth year undergraduate, or first year graduate, professional, or higher. CPS also sends PIN mailers to students who used the Internet to submit a FAFSA or make corrections. Students who supplied a valid e-mail address on their application will receive a PIN notification by e-mail.

Schools can also request that specific students or groups of students receive a PIN instead of a paper Renewal FAFSA. Schools can request PINs be mailed to students by submitting either a PIN Request via FAA Access to CPD on-line or a 'Type 2 Individual PIN Request' via the Student Aid Internet Gateway (SAIG).

School Eligibility to Make PIN Requests

To participate in the PIN Request process via the FAA Access to CPS Online site or Type 2 requests via SAIG, your school must:

- Have completed and filed a SAIG Enrollment Form that requests specific services for an EDE process (such as receiving electronic automatic ISIRs). The SAIG Enrollment process can be completed at **FSAWebEnroll.ed.gov**;

- Have an active enrollment status for your Federal School Code, which means you have correctly indicated on your SAIG Enrollment Form the Federal School Code you plan to use to perform the specific processes;

- Ensure your Federal School Code has an active enrollment status for Renewal Applications. Your enrollment status is designated on your school's SAIG Enrollment Form with CPS/WAN Technical Support; *and*

- Be set up to receive electronic automatic ISIRs for the 2002-2003 academic year for the destination number (TG#) you use to submit your PIN Request.

If your school is not properly enrolled for Renewal Applications, you cannot make PIN requests. If you do, you will receive error messages or rejected batches (or both) when you submit a PIN Request. If you want to verify or update your status for electronic automatic ISIRs or Renewal Applications, you can contact CPS/WAN Technical Support at 800/330-5947. For additional information on the PIN request process, please refer to Section 2, EDE Processing, in this technical reference.

What's New for the Renewal FAFSA process for 2003-2004?

- An e-mail will be sent to students who provided a valid e-mail address on their 2002-2003 record. The e-mail will include the URL that students can access to receive a reminder of their PIN (duplicate PIN). If no e-mail address was provided, or the syntax of the e-mail is invalid, a PIN Mailer is sent via the U.S. Postal Service.

- 2002-2003 applications that we received via FAA Access to CPS Online are treated like electronic applications. Students will receive an e-mail if they provided a valid e-mail address. Otherwise, they will receive a paper Renewal FAFSA.

- The PIN request file will be sent in the RADD04IN message class and the RAPP/PIN Print Notification File will be returned to schools in the PINR04OP message class. Last year the RAPP/PIN Print Notification File was returned in the RADD03OP message class.

- If a student qualified for the Auto-Zero EFC for 2002-2003, we will pre-populate the tax and income information on the form.

- Tax line references were added to the Renewal FAFSA, instruction booklet, and Renewal FAFSA on the Web site.

- All Renewal FAFSA eligible records are checked against the NSLDS Payment School File to determine if any institutions have made payments to the student. If the Renewal Record matches any record on the NSLDS file, those school codes will be pre-populated in the school code positions. All other school codes will be removed. If no match with NSLDS occurs, the existing school codes will carry forward.

Refer to the *Renewal Application (RAD) Process Guide* for more details regarding the PIN request and the RAD process. The *RAD Process Guide* can be found on ED's Federal Student Aid Download (FSAdownload) Web site located at **FSAdownload.ed.gov** as well as **ifap.ed.gov**.

Institutional Student Information Record (ISIR)

CPS generates an ISIR in response to:

- Electronic Free Application for Federal Student Aid (FAFSA), correction, or duplicate request from your school.

- Electronic FAFSAs and corrections done by another school. You will receive the resulting ISIR if your Federal School Code is listed on the transaction.

- Web FAFSAs or corrections using FAFSA on the Web, Renewal FAFSA on the Web, or Corrections on the Web.

- Paper FAFSAs or corrections to a Student Aid Report (SAR) if your Federal School Code is listed on the transaction.

- Secondary post-screening transaction from NSLDS or INS.

- An application or correction submitted via FAA Access to CPS Online.

CPS sends Automatic ISIRs to destination points for every student indicating a school serviced by the destination point on the FAFSA, and to state agencies which elect to receive ISIRs for legal residents or students indicating a school in that state. The Record Layouts section includes details on the ISIR Record layouts. The Processing Codes section includes information on comment codes, verifiable rejects, and how to respond to each.

State agencies can request ISIRs for any student on CPS database. This process is known as the Federal Data Request (FDR). The record layouts for FDR (FDRS04IN), are in the Record Layouts section, and the procedures for the FDR process are in the EDE Processing section.

The Printing section contains specifications for printing the ISIR.

Electronic Corrections/Duplicate Requests

Schools can submit corrections to the FAFSA data electronically. The Record Layouts section includes the record layouts for submitting corrections (CORR04IN).

Schools can make duplicate requests to receive a specific ISIR transaction for a student provided their Federal School Code is listed on that transaction. The Correction and Duplicate Request Record layouts are found in the Record Layouts section and are submitted in the CORR04IN message class.

Information about adding your Federal School Code to receive electronic data, making signature corrections, requesting a duplicate ISIR, and using the Correction Record are found in section 2, EDE Processing.

Handling Record Level Rejected Records

If the specifications in this guide are not followed on a particular record, an EDE Record Level Error Report file is transmitted to you and may be printed as an error report. (The layout is in the Record Layouts section.)

The EDE Record Level Error Report contains the record's serial number, the student's ID, the transaction number, last name, first name, the SAR field number in error, an edit code, an error code, and a text explanation for the reason the record was rejected. Each field in error is reported. If it was rejected due to invalid value, CPS sends the actual value of the data received from the school. A serial number and student ID is listed more than once in the EDE Error Record Report when a record has more than one field in error. See section 4, Processing Codes for additional details about rejects. The following is a list of message classes for reporting errors:

CORE04OP	Electronic Correction or Duplicate Request Errors
FDRE04OP	Rejected FDR Requests
EAPR04OP	Electronic Application Rejects
SIGA04OP	Signature Correction Acknowledgements & Errors
EREP04OP	PIN Request Errors

Handling Batch Level Rejected Records

A Batch Level Error Report is returned to you if an entire batch is rejected because of an incorrect batch number. The message classes are the same as used for rejected individual records. The layout for this report appears in the Record Layouts section. The Processing Codes section has the specific error codes and messages.

What's New and Changed in the EDE Technical Reference for 2003-2004

Listed below you will find some of the significant changes in the *2003-2004 EDE Technical Reference*.

Section 3 Changes

The FAFSA Express/Web Hold Information Record Layout was renamed the School Web Student Signature Hold Information Record Layout.

Removed "Mailer" from the title of the Type 2 Individual PIN Mailer Request Export and PIN Error Import Record Layout.

ISIR Changes

Please refer to section 4, Processing Codes for the 2003-2004 ISIR Cross Reference table. This table is a cumulative list of changes to the ISIR.

The following fields were added to the ISIR Record Layout:

- Parent's Marital Status Date

- Reject Override A

- Reject Override C

- FAFSA Data Verify Flags

- Direct Loan Plus Master Prom Note Flag

The following fields were deleted from the ISIR Record Layout:

- NSLDS Pell Remaining Amount to Pay (1 through 3)

Section 4 Changes

Field Name and Position Cross-Reference Table

This table was modified to include a new column to list the Field Verification Flag positions.

E-mail Address Valid Content Table

Removed this table and inserted the valid content in the record layouts where appropriate.

Table of Reject Codes and How to Respond to Each

Modified Rejects:

- A is now a verifiable reject on the FAFSA and Correction Records. The end year range increased from 1927 to 1928.

- B has increased the end year range from 1986 to 1987.

- C is now a verifiable reject on the FAFSA and Correction Records. The description means that the taxes paid are greater than zero and greater than or equal to 40% of the AGI, but not equal to or greater than AGI. (Does not apply to electronic or Web transactions).

- 16 has been modified to remove the reference to FAFSA Express.

New Rejects:

- D is for a dependent student whose Father's/Stepfather's SSN is in the invalid range.

- E is for a dependent student whose Mother's/Stepmother's SSN is in the invalid range.

- R is for a SSN match but no date of birth match.

- 9 is for a dependent student and both the Father's/Stepfather's and the Mother's/Stepmother's SSN fields are blank.

- 12 describes a record where the taxes paid are greater than or equal to the AGI. (Does not apply to electronic or Web transactions).

Batch Level Error Message Tables

- Modified all the error code numbers.

- Added a new reject reason 07, 10 and 11.

- Deleted the former reject reason 14.

Record Level Error Messages

- Modified error codes 3 and 4.

- Deleted the former reject reasons 14, 15, 16 and 18.

Field Name and Position Cross-Reference

- Added a new column titled Field Verification Flag Position.

Message Classes

- Changed process year in the all message classes from 03 to 04.

- Increased field lengths for CORR04OP, EAPS04OP, ESFN04OP, ESFR04OP, FDRF04OP, SARA04OP, SARA04TS, SYSG04OP, TAPS04OP, TCOR04OP, TSAR04OP, YTDN04OP, YTDO04OP, and YTDR04OP from 2450 bytes to 2560 bytes.

- Increased field lengths for EAPS04IN and TAPS04IN from 650 bytes to 800 bytes.

- Renamed the RADDXXOP message class to PINRXXOP where XX is the process year.

Global Change

#S Batches

Files processed from Signature Correction files will no longer be returned in #S batches. These files will be processed and returned in the System Generated message class, SYSG04OP, as #G batches.

What's Changed in the Record Layouts Section Since the NASFAA Version?

- In the first draft of the record layouts we noted that the e-mail address in several record layouts was changed to no longer accept the pipe symbol (|) as valid content. Since the NASFAA version, we have removed this change and we will allow it as valid content for the e-mail address as we did last year.

- We changed all references to "MDE" and replaced them with "IDC" in ISIR fields 109, 116, and 132. IDC stands for Image Data Capture.

- On the NASFAA ISIR draft we noted in field 118 that "3 = Easy FAFSA" was added as an Electronic Application Entry Source Code. We have deleted this value from the field. The only change from last year is that we deleted the value of 5.

- We modified the taxable income parameter of $13,000 in ISIR field 142, Automatic Zero EFC, to $15,000.

- We added value 65 = Easy FAFSA on the Web to the Application Data Sources/Type Code on the ISIR Record layout field 163. We also corrected the value of 51 = Paper Application from an "added" field to a "modified" field.

- On the NASFAA ISIR draft we noted in field 164 that value 32 for Electronic Signature was a new Transaction Data Source/Type Code. However, in error, we did not list 32 as a valid value in the *2002-2003 EDE Technical Reference*. We also noted that field 65 was modified when the only change was to the wording.

- Since the NASFAA draft we have added "Electronic" to valid content description of value 33 = Quick Correction and added value 65 = Easy FAFSA on the Web to the following record layouts and field numbers:

  - Header Record, Field 12

  - Trailer Record, Field 12

  - ISIR Record, Field 164

- We removed "Mailer" from the title of the Type 2 Individual PIN Mailer Request Export and PIN Error Import Record Layout.

- On the FAFSA Record Layout, we modified the description for the Permanent Mailing Address, Student's Permanent City, and Student's Driver's License Number to say, "If non-blank, first character cannot be blank" instead of "If non-blank, first character cannot be **non-blank**".

- The justification was inadvertently left off of fields 112, 113, and 274 of the FAFSA Record Layout. All three fields should be left justified.

- We renamed the Signature Record Layout to Signature Record Export Record Layout to match the naming format of the other record layouts.

Getting Help

If you have concerns or questions regarding this technical reference please contact CPS/WAN Technical Support. Listed below are the areas CPS/WAN Technical Support can assist you with. For a complete listing of all FSA sources of assistance go to the FSAdownload Web site located at **FSAdownload.ed.gov** to download the *Sources of Assistance for Schools* guide.

CPS/WAN Technical Support   800/330-5947

Telecommunications Device for the Deaf   800/511-5806
(TDD/TTY)

E-mail: cpswan@ncs.com

Fax: 319/358-4260

Working hours are 7 a.m. – 7 p.m. (CT), Monday through Friday

FSATECH is an e-mail listserv for technical questions about the U.S. Department of Education's FSA systems, software, and mainframe products. For more information about FSATECH, including how to subscribe, visit the FSA Schools Portal: Listservs & Mailing Lists:

http://www.ed.gov/offices/OSFAP/services/fsatechsubscribe.html

EDE Processing

Introduction

This section provides a more detailed description of the Electronic Data Exchange (EDE) process. It provides instructions for each of the individual processes within EDE.

Electronic FAFSA

The Electronic Free Application for Federal Student Aid (FAFSA) process allows destination points to enter FAFSA data and send it to the Central Processing System (CPS) for processing. The FAFSA data can be collected on either a paper Renewal FAFSA or the FAFSA. Once processed by CPS, the results of the Electronic FAFSA are transmitted back to the destination point.

EDExpress software is provided free to destination points by the U.S. Department of Education (ED). It allows Financial Aid Administrators (FAAs) to enter the FAFSA information into a personal computer. However, schools may choose to develop their own software instead. Regardless of whether the FAFSA data is entered using EDExpress or other software, the data must adhere to ED's editing rules in order to be accepted by CPS.

The remainder of this section includes specifications for developing software to provide the required Electronic FAFSA functions.

Electronic FAFSA Process

The Electronic FAFSA process involves five steps:

1. The student submits a completed and signed paper FAFSA to the school.

2. The information on the FAFSA is key entered.

3. The FAFSA data is edited and corrected until a clean data file is created. The data elements for each field must be in the valid range with no inconsistencies in the data. For example, the system will generate an edit for inconsistent data in these fields when a student indicates a single status yet provides income earned from work for student and spouse.

4. The file is formatted and transmitted to CPS via the Student Aid Internet Gateway (SAIG).

5. Processed FAFSA Records are transmitted back to the destination point as Institutional Student Information Records (ISIRs) under the message class EAPS04OP.

Receiving the Completed Paper FAFSA or Paper Renewal FAFSA

Schools participating in Electronic Applications must have their students complete and sign a paper FAFSA or paper Renewal FAFSA. ED provides the FAFSA form. The completed and signed document must be kept on file at the school. If a student submits a paper Renewal FAFSA to the school, the Renewal FAFSA should be entered as a FAFSA.

Entering the FAFSA Information

As part of the FAFSA entry, you are responsible for ensuring that the data meets the field-by-field criteria provided in the 'Valid Field Contents' column of the FAFSA Application Export Record Layout. The record created by your software must adhere to the record layout provided later in the Record Layout section with the addition of a Carriage Return/Line Feed (CR/LF, ASCII 13, 10 HEX 0D and 0A respectively) at the end of each record. Use of an end-of-file mark (ASCII 26 or HEX 1A) is optional. FAFSAs with invalid dates or formats are rejected.

Formatting and Transmitting the Records

Use EDconnect, the transmission software provided by ED, to format your data records and transmit them over SAIG. The batch Header and Trailer Records are provided in the Record Layouts section. Each batch to be transmitted must start with a Header Record followed by the data records followed by the Trailer Record.

Receiving Processed Records

You receive your processed FAFSA Records in ISIR format in the EAPS04OP message class.

Note: See the Printing section for more information on printing ISIRs.

Rejected FAFSA Records

There may be instances when CPS does not accept your records for processing. CPS returns a rejected electronic FAFSA error report to you in the message class EAPR04OP. The Record Layouts section contains two reject layouts. The first is for rejects at the batch level (the whole batch rejects), EDE Batch Level Error Report Import Record Layout. The second is for rejects at the record level (individual record(s) reject), EDE Record Level Error Report Import Record Layout. The Processing Codes section contains additional information on the reject reasons found in the record layout.

There are two categories of rejections for submitted FAFSA Records:

Transaction Rejects: A transaction reject prevents the FAFSA Record from being processed. If a record is rejected for one or more reasons, an error report is returned to the school in message class EAPR04OP (see the layout in the Record Layouts section) and no ISIR is created. These rejects are also known as record level rejects.

Compute Rejects: CPS contains a series of edits that evaluates data on incoming FAFSA data for consistency and completeness. These edits apply to all data from electronic and paper input. An Expected Family Contribution (EFC) is not computed for a FAFSA rejected for a compute reject reason. However, an ISIR is produced. ISIRs with a compute reject are returned in the EAPS04OP message class. The reasons for the compute reject are coded on the ISIR. Refer to the Processing Codes section for information on interpreting these reject codes.

There are two types of FAFSA compute reject reason codes:

Numeric: Certain data items MUST be corrected before a valid ISIR can be generated (Non-Verifiable).

Alphabetic: Certain data items MUST be either corrected or verified before a valid ISIR can be generated (Verifiable). An alpha reject reason code is a verifiable data element, meaning the data given is questionable but could be correct.

In the paper system, a student can verify a data field by re-entering the same information in the Student Aid Report (SAR) correction column for the field in question. In the electronic process, the school verifies the data (re-enters the data as a "correction") and transmits the Correction Record to CPS. Data that must be verified or corrected in response to each reject reason is provided in the Processing Codes section.

A student's record will not have an EFC if the record contains questionable data and has a FAFSA reject reason code(s). The reject reason code(s) are found in positions 612 through 625 on the ISIR. The Table Of Reject Codes And How To Respond To Each is found in section 4 of this document.

PIN Requests

Schools can request that a PIN be sent to eligible applicants instead of the paper Renewal FAFSA. The PIN would allow the student to access their electronic 2003-2004 Renewal FAFSA data on the Web. Renewal FAFSAs may be available for returning students and display the 2002-2003 information. The student applicant either verifies that the 2002-2003 information is still correct for 2003-2004 or updates the information on file at CPS.

For more information on PIN requests, please refer to section 1, Overview, in this technical reference and to the *Renewal Application Data (RAD) Process Guide*. The *RAD Process Guide* contains additional information regarding changes to the Renewal FAFSA process and can be found on the U.S. Department of Education's Federal Student Assistance Download (FSAdownload) Web site located at **FSAdownload.ed.gov** as well as **ifap.ed.gov**.

Renewal PIN Request Process

There are two options to request that a PIN be sent to a student instead of the paper Renewal FAFSA:

1. Make a PIN request via FAA Access.

2. Type 2 Individual PIN Request - This request is sent via SAIG. You will need to create a file that contains a CPS Header, Type 2 Individual PIN Request Export and PIN Error Import Record Layout, and the CPS Trailer. All of these layouts are found in section 3, Record Layouts.

Each destination point will receive a report in the format of the RAPP PIN/Print Notification layout, found in section 3, Record Layouts. This report will identify which students received a paper Renewal FAFSA or a PIN.

If a student returns a completed Renewal FAFSA to the school, the data can be entered, edited, and transmitted to CPS as if it were a FAFSA.

ISIR

The ISIR is a fixed-length record containing reported information from the FAFSA, as well as key processing results. The names and addresses of the colleges the student plans to attend in 2003-2004 are translated to a 6-digit identifying Federal School Code on the ISIR. The preparer's name or address is not entered by the Image Data Capture (IDC) processor. Generally, all information printed by CPS on the SAR is coded in the ISIR file.

Note: The average CPS processing time is between 48-52 hours.

NSLDS Data

The ISIR carries National Student Loan Data System (NSLDS) information, which is located at the end of the ISIR Record Description.

ISIR Receipt Process

ISIRs are transmitted by CPS to the SAIG in batches containing a batch Header Record, one or more ISIRs, and a batch Trailer Record. Descriptions of the contents of the ISIR are in the Record Layouts section. CPS Header and Trailer Records are described in the Record Layouts section and at the end of this section.

ISIR Types

There are four reasons why CPS generates an ISIR:

- ISIRs are automatically generated in response to a FAFSA or correction entered at a site other than your school or state agency. These "automatic ISIRs" are generated following the entry of a paper FAFSA or SAR by the IDC processor, by an electronic FAFSA from FAFSA on the Web or Renewal on the Web, by a correction from Correction on the Web, or by an application or correction from FAA Access to CPS Online. They may also be produced following the entry of an electronic FAFSA or correction by another EDE school. ISIRs resulting from students correcting their data on the Web are sent to the school this way. Automatic ISIRs are sent to school destination points in the SARA04OP message class. State agencies receive Non-Resident ISIRs in the ESFN04OP message class and Resident ISIRs in the ESFR04OP message class.

- ISIRs are generated in direct response to electronic FAFSAs, Correction/Duplicate Records, and Signature Records submitted by schools using EDExpress, a mainframe system, a third-party software or the FAA Access to CPS Online Web site. ISIRs are returned to destination points in the EAPS04OP, CORR04OP, and SARA04OP message classes, respectively.

- ISIRs are generated in response to a request by state agencies through the Federal Data Request (FDR) process. This process allows state agencies to request a processed FAFSA Record for any student on CPS database. ISIRs are returned to the state agency's destination point in FDRF04OP message class.

- ISIRs are system-generated due to reprocessing by CPS, NSLDS post-screening, INS Secondary process, and an applicant being released from a hold file. These ISIRs are returned in the SYSG04OP message class. Any ISIR that has a value in the systems generated field are returned in the SYSG04OP message class except when the value is L, duplicate request, or blank.

Each school subscribing to the ISIR service automatically receives one ISIR for every student who lists their school on the FAFSA. Servicers receive only one ISIR per destination point.

Requested ISIRs

Requested ISIRs are generated in response to input from the school or state agency. ISIRs requested by schools are transmitted to the SAIG in one of four message classes, depending upon the type of input.

- **EAPS04OP**

  ISIRs in this message class are returned to the school in response to electronic FAFSAs. The school receives one ISIR for every FAFSA submitted that did not receive a transmission reject. Refer to the Record Layouts section for EDE Batch or EDE Record Level Error Report Import Record Layout and the Processing Codes section for Batch and Record Level Error Messages.

- **CORR04OP**

  ISIRs in this message class are returned to the school in response to electronic corrections or duplicate requests. The school receives an ISIR for every correction or duplicate request submitted that did not receive a transmission rejection. Refer to the Record Layouts section for the EDE Record Level Error Report Import Record Layout, and the Processing Codes section for Batch and Record Level Error Messages.

  Note: A school, with the student's consent, is able to electronically add its Federal School Code to the list of school choices on the student's ISIR Record with the Data Release Number (DRN). Instructions for this are explained later in this section.

- **SYSG04OP**

  ISIRs in this message class are sent to the school as a result of a transaction automatically created by CPS. The school does nothing to initiate these ISIRs. There are several instances when CPS generates an ISIR for a student:

  - Hold File status changes

  - CPS Reprocessing of records due to formula changes

  CPS receives changed information via NSLDS Post-Screening INS Secondary Match

- **SARA04OP**

  Requested ISIRs in this message class are sent to the school as a result of the school sending a signature for an applicant and/or a parent who filed using one of the Web products or FAA Access to CPS Online. Automatic ISIRs in this message class are also received from paper FAFSAs and corrections, from another school filing an electronic FAFSA or electronic correction with your school listed, or a student filing a FAFSA on the Web or making corrections on the Web.

Note: If an ISIR receives a reject code of 14, 15, or 16 (missing signatures), the school and state agency receive the full ISIR electronically. As with other rejects, an EFC is not computed until the reject is resolved.

State Agency Options

State agencies can combine processed FAFSA data from CPS with common loan application data to guarantee federal student loans and/or with state data to award state scholarships and grants.

As destination points, state agencies have two options for obtaining processed FAFSA data:

- Automatic ISIR Processing

- Federal Data Request (FDR)

Automatic ISIRs for State Agencies

Each state agency subscribing to the ISIR service can choose to automatically receive one ISIR for every student who:

- Indicates that state on the FAFSA as the state of legal residence

- Is a non-resident but lists a college within the state

- Both

Note: If the student indicates on the FAFSA more than one school that is located in your state, your state agency receives only one ISIR.

Automatic ISIRs are transmitted daily from CPS to the SAIG in one of two message classes:

ESFR04OP   State Agency ISIR Resident

ESFN04OP   State Agency ISIR Non-resident

Note: The state agency indicates what type of ISIRs (residents, non-residents or both) it wants to receive on the SAIG Agency Enrollment Form.

Federal Data Request Processing (FDR)

A Federal Data Request (FDR) is the process by which a state agency can request the electronic processed FAFSA Record for any student in CPS database.

In the case of students who are neither residents of the state nor attend a school in the state, an FDR can be made if the student has signed a loan or state grant application that releases CPS data to the state agency. The agency must retain the signed FAFSA. When requesting and receiving this data from CPS, use the following message classes:

> FDRS04IN   FDR Request
>
> FDRF04OP   Processed FDRs
>
> FDRU04OP   Unfulfilled FDRs not on CPS Database after 30 days

Requesting a FDR Record

To request a specific applicant's record, the agency must transmit over the SAIG the Social Security Number (SSN) and the first two letters of the last name. Use the FDR Request Record layout FDR Export Record Layout (FDRS04IN) in the Record Layouts section. Use the following steps to create a request for a single applicant's record:

1. In the first position of the record, enter 4 to indicate this is a request for a 2003-2004 applicant transaction.

2. In positions 15 through 17, enter 199. This indicates a request for an ISIR Record.

3. In positions 18 through 26, enter the applicant's original Social Security Number (SSN). This is the number reported by the applicant on the FAFSA form and does not reflect any corrections to the SSN that might have been made.

4. In positions 27 through 28, enter the first two letters of the applicant's last name. These are the letters reported by the applicant on the FAFSA form and do not reflect any corrections to the last name that might have been made.

5. In position 580, enter F (FDR) for the Input Record Type.

Remember, prior to sending the file, you must add a Header Record before the FDR request Record(s) and a Trailer Record after the FDR Request Record(s).

Requesting More than One FDR Record

Up to 12 FDRs can be requested on a single record (message class FDRS04IN). To request up to 12 records, repeat steps 2 through 4 using the remaining data fields on the FDR Record. The second record begins in position 53, the third in position 91, the fourth in position 129, the fifth in position 167, the sixth in position 205, the seventh in position 243, the eight in position 281, the ninth in position 319, the tenth in position 357, the eleventh in position 395, and the twelfth in position 433.

To request more than 12 ISIRs, create an additional record by repeating steps 1 through 7.

Response to a FDR Request

State agencies receive one batch of ISIRs in response to each batch of FDR Records submitted. The batch of ISIRs will be returned in the FDRF04OP message class. It contains one ISIR for every submitted FDR Record that was not rejected.

If a requested student record is not found on CPS database after 30 days, a notice is returned to the requesting agency in message class FDRU04OP.

Rejected FDR Records

A transaction reject prevents the FDR Record from being processed at CPS. If a record is rejected for one or more reasons, an error report is returned to the agency in a message class titled FDRE04OP.

Electronic Corrections

Schools with destination points enrolled for electronic correction processing are able to transmit corrections to FAFSA data via the SAIG.

EDExpress allows schools to enter and edit correction data according to system requirements. It also creates an electronic Correction Record ready for transmission using the communications interface software, EDconnect. Schools, however, may choose to develop their own software to enter, edit, and format correction data. Specifications for developing correction software are provided in the remainder of this section.

General Correction Entry Specifications

Only corrected information from a student's record, not the complete applicant record, is transmitted to CPS. This approach minimizes the transmission volume. Corrected information is transmitted as a fixed-length record. The layout and description of this record is in the Record Layouts section, Correction Export Record Layout (CORR04IN).

Creating a Correction Record

Use the following steps to create a Correction Record:

1. In the first position of the record, enter 4 to indicate this is a correction to a 2003-2004 applicant transaction.

2. In positions 2 through 10, enter the applicant's original Social Security Number (SSN). This is the number reported by the applicant on the FAFSA form and does not reflect any corrections to the SSN that might have been made.

3. In positions 11 and 12, enter the first two letters of the applicant's last name. These are the letters reported by the applicant on the FAFSA form and do not reflect any corrections to the last name that might have been made.

4. In positions 13 and 14, enter the transaction number of the applicant record being corrected. For example, enter 01 to correct the first transaction on file at CPS. The transaction does not necessarily have to be the latest one on file at CPS. If the transaction number being corrected is not on CPS database, the record is rejected. If you want to correct the most recent transaction, you can enter 99.

    Note: When making a correction using transaction 99, corrections to SAR field number 087 (the first Federal School Code) and field number 114 (DRN) must also be provided on the record.

5. In positions 15 through 17, enter the SAR number of the SAR field being corrected. Each correctable field has a 3-digit SAR number associated with it. For example, enter 001 to correct the student's last name. The SAR numbers with valid field content are provided in the Correction Data Entry Specifications table found in the Processing Codes section.

6. In positions 18 through 52, enter the new value for the field being corrected.

7. In positions 471 through 476, enter the Federal School Code of the school making the correction.

8. In positions 477 through 526, enter or correct the student's e-mail address.

9. In positions 555 through 562, enter the transaction receipt date. This is the date you received the correction information from the student.

10. In positions 575 through 579, enter the serial number (the sequential position of the correction record in the batch.) For example, the first student's correction record will have a serial number of 00001, and the second student's serial number will be 00002, etc.

11. In position 580, enter H (correction) for the Input Record Type.

Note: To correct a field to blank, enter a single asterisk (*) left justified in that field. The Correction Data Entry Specification table, in section 4, distinguishes which fields can be corrected to blank as not all fields can be.

Up to 12 SAR data fields can be corrected on a single record. Repeat steps 5 and 6 using the remaining data fields on the Correction Record if more than one field is being corrected. If more than twelve fields require correction, an additional record must be created, repeating steps 1 through 10. Both data records for the student have the same serial number.

Detailed Data Entry Specifications

Each corrected value must meet certain standards; otherwise, the Correction Record is rejected. Field-by-field data entry specifications are provided in the Processing Codes section. For each field, these specifications identify the type (character, numeric, or signed/numeric), acceptable length, whether the field is correctable, whether the field is correctable to blank, and the valid values for the correction. Keep the following items in mind:

- Left-justify the corrected value within the data field on the Correction Record, while zero-filling numeric fields up to the valid maximum length of the field and leaving empty positions to the right blank. For example, to correct the number of family members to 5, enter 05 in positions 18 and 19, leaving positions 20 through 52 blank. To correct the student's last name to Smith, enter SMITH in positions 18 through 22, leaving positions 23 through 52 blank.

- All 9s in a field indicate the reported or calculated value is greater than or equal to the value of all 9s. Blanks are allowable in some fields.

- Fields can contain one of three data types, character, numeric or signed numeric.

- A negative entry is acceptable for a limited number of fields. The Correction Data Entry Specifications table in the Processing Codes section identifies the fields in which a negative is acceptable under the Justify Signed column and the valid field content column. The Signed Numeric Field table below also defines the signed fields. With signed numeric fields, the sign is always implied in the right most character of the field. For example, if the Student's Adjusted Gross Income field contains a value of negative 3507, it appears as 00350P. The following chart explains the conversion of the sign and the number:

Signed Numeric Fields:

{	+0	E	+5	}	-0	N	-5
A	+1	F	+6	J	-1	0	-6
B	+2	G	+7	K	-2	P	-7
C	+3	H	+8	L	-3	Q	-8
D	+4	I	+9	M	-4	R	-9

The table listed on the next three pages defines all the signed fields that can be sent to and received from CPS.

Signed Numeric Fields Table

ISIR Field #	SAR Field #	Field Length	Field Name	Valid Field Content	Found Only on ISIR
44	039	6	Student's Adjusted Gross Income from IRS form	-999999 to 999999 Blank	N
47	042	6	Student's Income Earned from Work	-999999 to 999999 Blank	N
48	043	6	Spouse's Income Earned from Work	-999999 to 999999 Blank	N
78	074	6	Parents' Adjusted Gross Income from IRS form	-999999 to 999999 Blank	N
81	077	6	Father's/Stepfather's Income Earned from Work	-999999 to 999999 Blank	N
82	078	6	Mother's/Stepmother's Income Earned from Work	-999999 to 999999 Blank	N
199		7	TI: Total Income	-9999999 to 9999999 Blank = None Calculated	Y
201		7	STX: State and Other Tax Allowance	-9999999 to 9999999 Blank = None Calculated	Y
204		7	AI: Available Income	-9999999 to 9999999 Blank = None Calculated	Y
205		7	CAI: Contribution From Available Income	-9999999 to 9999999 Blank = None Calculated	Y
206		9	DNW: Discretionary Net Worth	-999999999 to 999999999 Blank = None Calculated	Y
209		7	PCA: Parents' Contribution from Assets	-9999999 to 9999999 Blank = None Calculated	Y
210		7	AAI: Adjusted Available Income	-9999999 to 9999999 Blank = None Calculated	Y
214		7	STI: Student's Total Income	-9999999 to 9999999 Blank = None Calculated	Y

Signed Numeric Fields Table (Continued)

ISIR Field #	SAR Field #	Field Length	Field Name	Valid Field Content	Found Only on ISIR
215		7	SATI: Student's Allowance against Total Income	-9999999 to 9999999 Blank = None Calculated	Y
217		9	SDNW: Student's Discretionary Net Worth	-999999999 to 999999999 Blank = None Calculated	Y
218		7	SCA: Student's Contribution from Assets	-9999999 to 9999999 Blank = None Calculated	Y
219		7	FTI: FISAP Total Income	-9999999 to 9999999 Blank = None Calculated	Y
220		7	SEC TI: Secondary Total Income	-9999999 to 9999999 Blank = None Calculated	Y
222		7	SEC STX: Secondary State Tax Allowance	-9999999 to 9999999 Blank = None Calculated	Y
225		7	SEC AI: Secondary Available Income	-9999999 to 9999999 Blank = None Calculated	Y
226		7	SEC CAI: Secondary Contribution From Available Income	-9999999 to 9999999 Blank = None Calculated	Y
227		9	SEC DNW: Secondary Discretionary Net Worth	-999999999 to 999999999 Blank = None Calculated	Y
230		7	SEC PCA: Secondary Parents' Contribution from Assets	-9999999 to 9999999 Blank = None Calculated	Y
231		7	SEC AAI: Secondary Adjusted Available Income	-9999999 to 9999999 Blank = None Calculated	Y
235		7	SEC STI: Secondary Student's Total Income	-9999999 to 9999999 Blank = None Calculated	Y
236		7	SEC SATI: Secondary Student's Allowance Against Total Income	-9999999 to 9999999 Blank = None Calculated	Y

Signed Numeric Fields Table (Continued)

ISIR Field #	SAR Field #	Field Length	Field Name	Valid Field Content	Found Only on ISIR
238		9	SEC SDNW: Secondary Student's Discretionary Net Worth	-999999999 to 999999999 Blank = None Calculated	Y
239		7	SEC SCA: Secondary Student's Contribution from Assets	-9999999 to 9999999 Blank = None Calculated	Y
240		7	SEC FTI: Secondary FISAP Total Income	-9999999 to 9999999 Blank = None Calculated	Y
243		6	Assumed Student's AGI	-999999 to 999999 Blank = No assumption	Y
245		6	Assumed Student's Income from Work	-999999 to 999999 Blank = No assumption	Y
246		6	Assumed Spouse's Income from Work	-999999 to 999999 Blank = No assumption	Y
260		6	Assumed Parents' AGI	-999999 to 999999 Blank = No assumption	Y
262		6	Assumed Father's/ Stepfather's Income Earned from Work	-999999 to 999999 Blank = No assumption	Y
263		6	Assumed Mother's/ Stepmother's Income Earned from Work	-999999 to 999999 Blank = No assumption	Y

Making Signature Corrections

Signature information is required to resolve signature rejects (rejects 14, 15, and 16). Signature information does not need to be provided on other standard corrections unless you are using 99 as the transaction number. If you have a transaction that was a reject 14, 15, or 16, simply correct SAR field #101 (Signed By) to A (Applicant) or B (Both = Student and Parent), as appropriate.

If you need to add a signature to a student's record on the Web hold file you must use the layout for Signature Record Export Record Layout (SIGS04IN) found in section 3, Record Layouts. You can correct the student or parent signature using this layout. You must make sure the student included your school on the FAFSA or correction.

Adding Your Federal School Code to Receive Electronic Data

A school cannot make an electronic correction unless the school has been designated on the applicant transaction. You can add your Federal School Code to the list of schools receiving data electronically along with correcting other fields on the record by using the Correction Record layout (CORR04IN).

Follow these steps to add your Federal School Code and/or to make corrections:

1. In the first position of the record, enter 4 to indicate that this is a correction to a 2003-2004 applicant transaction.

2. In positions 2 through 10, enter the applicant's original SSN. This is the number reported by the applicant on the FAFSA form and does not reflect any corrections to the SSN that might have been made.

3. In positions 11 and 12, enter the first two letters of the applicant's last name. These are the letters reported by the applicant on the FAFSA form and does not reflect any corrections to the last name that might have been made.

4. In positions 13 and 14, enter the transaction number of the applicant record being corrected. For example, enter 01 to correct the first transaction on file at CPS. The transaction does not necessarily have to be the latest one on file at CPS. If the transaction number being corrected is not on CPS database, the record will be rejected. You can use transaction 99 to add your school code to the most recent transaction on CPS Database.

5. Enter 114 in the SAR Field Number Correction #1 field, positions 15 through 17 (corresponding to the SAR Field #114, the Data Release Number [DRN]).

6. Enter the student's DRN in Correction Data 1 field, positions 18 through 52. Remember to make it left justified, and leave any unused bytes blank.

   Note: A unique DRN is assigned to each Title IV applicant. It appears only on paper SARs and ISIR Records generated in response to electronic FAFSAs. If a valid DRN is not present on the Correction Record containing the Federal School Code change, the record is rejected.

7. Enter the SAR field number associated with the Federal School Code position being changed in the SAR Field Number Correction #2 field, positions 53 through 55. Possible field numbers are 087, 089, 091, 093, 095, and 097.

8. Enter the Federal School Code in the Correction Data 2 field positions 56 through 90. (Remember to make it left justified, and leave any unused bytes blank.)

   The number can be changed only to the number of the participating Electronic Data Exchange (EDE) school submitting the correction. You also must enter this number in the EDE Federal School Code field, positions 471 through 476. If the codes in these two fields do not match, the record is rejected.

   Schools may modify the Federal School Code and make other corrections to the applicant record on the same correction transaction.

9. Enter the date you created this record in positions 555 through 562, the EDE Transaction Receipt Date, in CCYYMMDD format.

10. Enter 00001 in positions 575 through 579, the serial number field. If you exceed 12 corrected fields, create a new record. The serial number on the second record is also 00001. The serial number increments with a second student's record.

11. In position 580, enter "H" (correction) for the Input Record Type.

Tips for Corrections

When your school submits an ISIR correction to CPS, we use the transaction number you provide in positions 13 to 14 as a template. We make changes to the fields you indicated, leaving other fields unchanged. Your Federal School Code must be one of the six listed, but it does not have to be the first college choice on the transaction to be processed by CPS. You receive the processed results in the CORR04OP message class; all other schools listed on the transaction will receive the new ISIR in the SARA04OP message class.

If you are submitting a Dependency Override or FAA Adjustment (professional judgment) as part of the Correction Record, only your school receives the resulting corrected ISIR transaction. Also, do not send a Dependency Override correction with a FAA Adjustment to a transaction without an EFC. If there is no EFC, first send the Dependency Override with any other corrections necessary to obtain an EFC. Then, submit the FAA Adjustment to the transaction with the dependency override and the EFC.

Requesting a Duplicate ISIR

Schools request duplicate ISIRs using the correction message class (CORR04IN). To see a full record layout refer to the Record Layout section under Duplicate Request Export Record Layout. Use the following steps to create a record requesting a duplicate ISIR:

1. In the first position of the record, enter 4 to indicate that this is a correction to a 2003-2004 applicant transaction.

2. In positions 15 through 17, enter 199. This indicates a request for an ISIR Record.

3. In positions 18 through 26, enter the applicant's original Social Security Number (SSN). This is the number reported by the applicant on the FAFSA form and does not reflect any corrections to the SSN that might have been made.

4. In positions 27 and 28, enter the first two letters of the applicant's last name. These are the letters reported by the applicant on the FAFSA form and do not reflect any corrections to the last name that might have been made.

5. In positions 29 and 30, enter the transaction number of the applicant record you want to receive. For example, enter 01 to request the first transaction on file at CPS. The transaction does not necessarily have to be the latest one on file at CPS. If the transaction number being requested is not on CPS database, the record is rejected.

    Note: You can use transaction '99' to request the most recent transaction on CPS database provided your Federal School Code is listed on the most recent transaction. If that transaction does not include that Federal School code, the request is rejected.

6. In positions 471 through 476, enter your Federal School Code.

7. In positions 555 through 562, enter the Transaction Receipt Date, the date you are requesting the duplicate transactions.

8. In position 580, enter D (duplicate) for the Input Record Type.

Up to 12 duplicate ISIRs can be requested on a single record (message class CORR04IN). To request up to 12 records, repeat steps 2 and 5, using the remaining data fields of the layout to request more than one record. The second record begins in position 53, the third in position 91, the fourth in position 129, the fifth in position 167, the sixth in position 205, the seventh in position 243, the eight in position 281, the ninth in position 319, the tenth in position 357, the eleventh in position 395, and the twelfth in position 433. If more than 12 ISIRs are required, then create an additional record by repeating the previous steps.

Response to a Correction/Duplicate Record

Schools receive one batch of ISIRs for each batch of Correction Records submitted. The batch, or message class, of ISIRs is titled CORR04OP. It contains one ISIR for every submitted student correction or student duplicate request not rejected for a transaction reject reason.

Rejected Correction/Duplicate Records

The two categories of rejections for submitted Correction Records, transaction and compute rejects are:

1. Transaction Rejects

   A transaction reject prevents the Correction Record from being applied to the student's record. If a record is rejected for one or more reasons, the school receives an error report in message class CORE04OP (see EDE Record Level Error Report Import Record layout in the Record Layouts section). No ISIR is created.

2. Compute Rejects

   CPS contains a series of edits that evaluate all incoming FAFSA and correction data for consistency and completeness. These edits apply to all data from electronic, Web, and paper input. An Expected Family Contribution (EFC) is not computed for a correction rejected for a compute reject reason. However, an ISIR is produced. Correction and duplicate ISIRs with a compute reject are returned in the CORR04OP message class. The reasons for the compute reject are coded on the ISIR in positions 612 through 625. Refer to the Processing Codes section for information on interpreting these reject codes.

   The two types of FAFSA compute reject reason codes are:

   - Numeric: Certain data items MUST be corrected before a valid ISIR can be generated (Non-Verifiable).

   - Alphabetic: Certain data items MUST be either corrected or verified before a valid ISIR can be generated (Verifiable). An alphabetic reject reason code is a verifiable data element, meaning the data given is questionable but could be correct.

In the paper system, a student can verify a data field by re-entering the same information in the SAR correction column for the field in question. In the electronic process, the school may verify the data (re-enter the data as a "correction"), or set the appropriate reject override (found at the end of the CORR04IN Record Layout in positions 527 through 531), and transmit the correction record to CPS. Data that must be verified or corrected in response to each reject reason is provided in the Processing Codes section.

A student's record may not have an EFC if the record contains questionable data and has an FAFSA reject reason code(s). The reject reason codes are found in positions 612 through 625 on the ISIR. They explain the questionable and highlighted field(s).

CPS Header and Trailer Records

Data transmitted through the SAIG are separated by message class for identification and processing purposes. Each message class consists of the following segments:

- Header Record

- Data Record(s)

- Trailer Record

Data records vary by processing function. Each record format is provided in the Record Layout section of this technical reference.

Each batch of data records must be preceded by a Header Record and followed by a Trailer Record. The end of each record (header, data, and trailer) is marked by a CR/LF (carriage return/linefeed, ASCII 13, 10). An End of File (EOF) marker (ACSII 26) is optional.

The format and content of Header and Trailer Records are found in the Record Layout section.

Received from the Central Processing System (CPS) message Header and Trailer Records – those records produced by CPS to send to the destination point, such as SARA04OP.

Sent to CPS message Header and Trailer Records –those records produced by the destination point to send to CPS, such as CORR04IN messages.

Note the following about batch Headers and Trailer Records:

- The Header and Trailer Records are the same lengths as the detail (data) records.

- Only data records of the same type (for example, FAFSAs) and the same year can be batched together. (There is one exception – Corrections and Duplicates can be batched together.)

- The Counts in the Trailer Record are for the number of student records, not the number of data records.

Note the following about batch numbers:

- Destination points are responsible for supplying a unique batch number on the Header and Trailer Records sent to CPS.

  Note: Non-unique batch numbers are considered a duplicate batch and are not processed by CPS.

- Batch level errors can be found in section 4 under Batch Level Error Messages.

- The structure of the 23-character unique batch number is as follows:

  #X4ZZZZZZCCYYMMDDHHMMSS where,

  #X = the record type indicator, with a pound sign (#) followed by the character below to signify the record type:

  > A = Electronic App ISIRs
  >
  > C = Correction/Duplicate ISIRs
  >
  > E = Automatic ISIRs
  >
  > F = Federal Data Requests ISIRs
  >
  > G = CPS System Generated ISIRs
  >
  > I = Year-To-Date (YTD) ISIRs
  >
  > K = State Agency Non-Resident ISIRs
  >
  > L = State Agency Resident ISIRs
  >
  > S = Signature Corrections
  >
  > Y = Reprocessed Records ISIRs
  >
  > Z = CPS System Generated ISIRs

  4 = year indicator (always "4" for 2003-2004 data)

  ZZZZZZ = the 6-digit valid Federal School Code or State Agency 3 byte Code followed by 3 spaces

  CCYYMMDD = the current date in century, year, month, day format

  HHMMSS = the current time in hours, minutes, seconds format

  Example:

  A batch number of #C4E1234520030509141532 signifies a batch of 2003-2004 corrections transmitted to CPS from a school with a 6-digit code of E12345 on May 9, 2003 at 2:15:32 PM.

Record Layouts

Introduction

This section provides all the necessary record layouts needed for users to create their own software to participate in the EDE process.

Header Record Sent To/Received From The CPS

Field #	Start	End	Length	Changes	Field Name	Valid Content	Justify
1	1	12	12		Header Record Identifier	CPS HEADER One blank position after CPS, and two blank positions after HEADER	Left
2	13	16	4		Data Record Length Indicates length of the data records.	4-digit numeric zero filled	Right
3	17	17	1		Sent To CPS: Type of Data Transmitted -------------------------- Received From CPS: Filler	A = Initial Applications H = Corrections or Duplicate requests F = FDR Request S = Signature Corrections 7 = PIN Request -------------------------- For ED Use Only	Left
4	18	24	7		Destination Number SAIG assigned when initial Enrollment Form was processed.	'TGXXXXX' where XXXXX is the 5-digit code for your destination number	Left
5	25	26	2		Filler	For ED Use Only	Left
6	27	34	8	Modified valid content for YY	Creation Date Date that batch was created.	Format is CCYYMMDD where CC = 20 YY = Year 02, 03, or 04 MM = Month 01-12 DD = Day 01-31	Left
7	35	40	6		Creation Time Time that batch was created.	Format is HHMMSS where HH = Hour 00-23 MM = Minute 00-59 SS = Second 00-59	Right
8	41	52	12		Filler	Blank	Left
9	53	56	4	Modified valid content	Award Year Current Academic Cycle	'0304' for 2003-2004	Left

Header Record Sent To/Received From The CPS (Continued)

Field #	Start	End	Length	Changes	Field Name	Valid Content	Justify
10	57	79	23	Modified valid content for cycle year Removed #S from If Received ISIR Batch Type	Sent To CPS: Batch Number -------------------------- Received From CPS: Batch Number -------------------------- Both Sent To and Received From CPS for: Cycle Year Federal School Code Date Time	IF SENT, Batch Type: #A = Export Applications-Initial #C = Export Corrections/ Duplicates #F = Export FDR #S = Signature Corrections -------------------------- IF RECEIVED, ISIR Batch Type: #A = Electronic App #C = Correction/ Duplicate #E = Automatic ISIRs #F = Federal Data Requests #G = CPS System Generated #I = Year-To-Date (YTD) #K = State Agency Non-Resident #L = State Agency Resident -------------------------- Cycle Year: 4 = 2003-2004 -------------------------- Federal School Code: X00000 to X99999 Valid characters for first position X are 0 (zero), B, E, or G, or State Agency: 3-byte code, YY# followed by 3 spaces. Valid characters for Y are alpha and # numeric -------------------------- Date: Current date using the format CCYYMMDD -------------------------- Time: Current time using the format HHMMSS	Left

Processing Codes

Introduction

This section provides charts and tables that include an explanation of the different reject codes and how to respond to each. Other tables provide information that further explains other processing codes associated with the Central Processing System (CPS) Electronic Data Exchange (EDE) process.

Summary of Tables

In this section, you will find several tables to assist you when reviewing files.

2003-2004 ISIR Cross-Reference

This table is a cross reference of the 2002-2003 Institutional Student Information Record (ISIR) field number, start position, and end position with the 2003-2004 ISIR field number, start position, and end position. It also lists valid field content for the field that has changed from the last award year.

Table of Reject Codes and How to Respond to Each

This table is used to determine the meaning of each reject code possible on a Student Aid Report (SAR) or ISIR. The table also outlines how to correct each reject and references comment code numbers associated with the rejects.

Batch Level Error Messages

This table associates reject codes at the batch level and includes the text for that reject code, a description of the error and a resolution. These error messages indicate that the batch was not processed, the structure of the file was not valid, and the Central Processing System (CPS) was not able to process the file. You will need to reformat the file appropriately and again send it to the CPS for processing. No Institutional Student Information Records (ISIRs) will be generated when there is a Batch Level error.

Record Level Error Messages

This table reports the record level reject codes. The actual text for each reject code, a description of the error and a resolution for each error is listed. These error messages indicate that the individual student record was not processed. Any student record in the batch, which does not receive a Record Level Error message, results in a processed ISIR for that student. (Those ISIRs will be sent back later in another file.) You will need to fix any student record with a Record Level Error message and send it to the CPS again for processing so an ISIR will be generated.

Assumption Overrides

This table associates the override codes with the assumption being made. It also explains what will happen if you use this code and an example of when you would use this code.

Field Name and Position Cross-References

This table is used to determine which fields were verified or corrected in the previous transaction or which fields are highlighted on the ISIR. It also defines the field positions for the SAR field, the FAFSA field name, and the question number on the FAFSA.

NSLDS Loan Program Codes

These codes are used to determine the loan program code on up to six loans in the NSLDS portion of the ISIR Record Description/Data Dictionary found in the Record Layouts section of this technical reference.

NSLDS Loan Current Status Codes

These codes are used to determine the current status on up to six loans in the NSLDS portion of the ISIR Record Description/Data Dictionary found in the Record Layouts section of this technical reference.

State/Country/Jurisdiction Codes

This table is used to determine the valid state abbreviations used for the following fields found throughout the Record Layouts section of this technical reference:

- Student's Permanent State

- Student's Driver's License State Code

- Student's State of Legal Residence

- Parents' State of Legal Residence

Correction Data Entry Specifications

This table is used in conjunction with the Correction Export Record Layout found in section 3, Record Layouts. This table defines the SAR field number and field length. It defines what data is valid to send for each SAR field on a correction record. The table also indicates if the SAR field is a signed value, the justification of the SAR field, and if the field can be corrected to blank.

Message Classes

This table lists the message classes associated with Application Processing.

ISIR Comment Codes

This section references where the Comment Codes can be located.

Table of Reject Codes and How to Respond to Each

*These Alpha reject codes are the same as the Reject Override Codes.

Reject Code	Reject Reason	Action	Comment Code
*A	Date of birth year equals 1900 through 1928.	Verify or correct the Date of Birth.	069
*B	Independent student and date of birth equals 09/01/87 or greater, and date of birth is not equal to or greater than current year.	Verify or correct the Date of Birth.	072
*C	Taxes paid is greater than zero and greater than or equal to 40% of the AGI, but not equal to or greater than AGI. (Does not apply to electronic or Web transactions).	Verify or correct Taxes paid.	154, 155
D	Dependent student and father's/stepfather's SSN is not in the valid range.	Verify SSN or correct the father's/stepfather's SSN.	166
E	Dependent student and mother's/stepmother's SSN is not in the valid range.	Verify SSN or correct the mother's/stepmother's SSN.	167
*N	Missing first or last name.	Correct the student's last name or first name or verify a blank first or last name field if the student actually has only one name.	080
P	Invalid SSN range.	Verify or correct the student's current SSN.	023
R	Social Security Match but no date of birth match.	Verify or correct the student's date of birth or contact the Social Security Administration for further assistance.	060
*W	Questionable number of family members, greater than 15.	If the student is dependent, verify or correct Parents' Number of Family Members. If the student is independent, verify or correct Student's Number of Family Members.	178, 179

Table of Reject Codes and How to Respond to Each (Continued)

Reject Code	Reject Reason	Action	Comment Code
1	Simplified needs test is not met and all asset data are blank.	If the student is dependent, provide the following: Parents' Cash, Savings, and Checking; Parents' Real Estate/Investment Net Worth and Parents' Business/Investment Farm Net Worth. If the student is independent, provide the following: Student's Cash, Savings and Checking; Student's Real Estate/Investment Net Worth and Student's Business/Investment Farm Net Worth.	150, 151
2	Incomplete FAFSA or Renewal FAFSA.	If the student is dependent, provide Parents' Taxed and Untaxed Income. If the student is independent, provide Student and Spouse (if married) Taxed and Untaxed Income.	129, 130
5	Missing or invalid Date of Birth.	Correct the Date of Birth.	018
8	SSN match with Date of Death.	Contact FSA Customer Service at 800/433-7327. The Social Security Number (SSN) on this transaction belongs to a deceased person according to the Social Security Administration.	145
9	Dependent student and both Father's/Stepfather's and Mother's/Stepmother's SSN are blank.	Review and supply Father's/Stepfather's and/or Mother's/Stepmother's SSN.	049
10	Missing marital status and number of family members.	If the student is dependent, review and correct Parents' Marital Status and Parents' Number of Family Members. If the student is independent, review and correct Student's Marital Status and Student's Number of Family Members.	168, 169

Table of Reject Codes and How to Respond to Each (Continued)

Reject Code	Reject Reason	Action	Comment Code
11	Marital Status inconsistent with reported incomes.	If the student is dependent, review and correct Parents' Marital Status plus Father's/Stepfather's Income From Work and Mother's/Stepmother's Income From Work. If the student is independent, review and correct Student's Marital Status plus Student's Income Earned From Work and Spouse's Income Earned From Work.	089, 099
12	Taxes paid is greater than zero and equal to or greater than AGI. (Does not apply to electronic or Web transactions).	Correct Taxes paid or AGI.	111, 114
13	Missing Name.	Provide the following: Student's Last Name and/or Student's First Name; Or verify a blank first or last name field if the student actually has only one name.	082
14	Missing student signature on paper FAFSA or SAR.	Signature correction must be made on a printed Student Aid Report certification page and resubmitted to the FAFSA Processor or may be corrected electronically.	160
15	Missing parent signature on FAFSA or SAR.	Signature correction must be made on a printed Student Aid Report certification page and resubmitted to the FAFSA Processor or may be corrected electronically.	108
16	Missing student signature on FAFSA on the Web, Renewal FAFSA on the Web Application, or an electronic application.	Signature correction must be made on a printed Student Aid Report certification page and resubmitted to the FAFSA Processor or corrected electronically.	110
17	Unknown citizenship status or student is not an U.S. citizen or eligible non-citizen.	Review and verify or correct Citizenship Status.	068
18	SSN not on Social Security Administration's database.	Correct the Social Security Number, or contact FSA Customer Service at 800/433-7327 for further assistance.	024, 062
19	An EFC cannot be calculated because the Department of Education has placed a 'hold' on the student.	Student needs to call 202-377-3243 to resolve comment 009.	009

Batch Level Error Messages

Error Code	Error Message	Error Resolution and/or Description
01	Invalid Batch Number	Invalid characters in the batch number
02	Invalid Batch Number	EDE batch ID does not match message class
03	Missing Batch Number	EDE batch number is blank or partially blank
04	Batch Computed – Skipping This Batch	Batch number used more than once at the CPS; change the batch number and resubmit
05	Header ID Not = "CPS HEADER"	Batch header ID not equal to 'CPS HEADER'. Review the batch Header Record layout, make appropriate changes and resubmit the batch.
06	Invalid Batch Type	Invalid batch header/trailer type
07	Inconsistent No. of Hdrs/Trlrs	Inconsistent number of batch headers or trailers
08	Invalid Batch Number Date	Invalid batch number date
09	Trailer N-count Not Equal to Actual Count	Batch trailer n-count not equal to actual count
10	EDE Inst Number Invalid	Institution not participating
11	Inst Code in Batch # Not Serviced by Destination	Institution not valid for destination point

Record Level Error Messages

Error Code	Error Message	Error Resolution and/or Description
01	EDE Inst Number Invalid	Federal School Code indicated is not participating in EDE. Check the code for validity.
02	Inst Code in Record Not Serviced by Destination	Federal School Code is not valid for destination point.
03	Corr Yr not 4	Process year not equal to 4.
04	Invalid Record Type	Invalid Record Type.
05	Not Found on Database	SSN and Name ID are invalid or do not match record on database.
06	DRN Number = ####	Requesting school is not listed on database record and is not included in the correction record with the applicant's correct DRN.
07	Invalid Transaction Number	Blank or invalid transaction number.
08	Trans 99 Requires DRN and Inst. Code	Transaction number equals 99 and Federal School Code and DRN are not included on correction record.
09	Too Many Transactions	Transaction number is greater than 30. Call the regional office of the Department of Education for instructions.
11	(Various messages; invalid data displayed on error file)	Out of range or invalid value in data field. Review the valid field content in this technical reference, and compare it to the data you submitted to the CPS.
12	(No message)	Incorrect field number or missing field number. Verify that field number used was valid on your record.
14	Extraneous Info on Dup	Duplicate request with data other than SSN, ID, Transaction Number, Signed by, or Special Handle.
15	Non-numeric serial number	Non-numeric serial number
16	Institution Already on Record	The only correction being made is to your Federal School Code, which is already listed on this record. If nothing else needs to be corrected you do not need to send this record again. If you have other corrections to this record, make them and send the record again without your school code.
18	Previous Application Already on Database	FAFSA or Renewal FAFSA with the same SSN and Name ID is already on file on the CPS match record on database.

Assumption Overrides

Assumption Override	Assumption Made When Override Flag Is Not Present	Results Of Setting Override Before Sending Data Triggering Assumption	Situation
1	Parents' number in college assumed to be 1.	Allow number in college to be greater than 6.	The Parents' Number of Family Members does not equal the number in college. The Parents' Number of college students in the household equals 7 or more.
2	Parents' AGI assumed equal to the sum of the father's/stepfather's and mother's/stepmother's income earned from work.	Allow parents' AGI to be zero if blank or zero is entered.	Parents' AGI is blank or zero. Tax return status is filed, will file, or blank. Father's/Stepfather's income from work or mother's/Stepmother's income from work is positive or negative.
3	Student's number in college assumed to be 1.	Allow number of family members to be equal to the number in college when they are equal and greater than 2.	The independent Student's Number of Family Members equals 3 or more. The Number of College Students in Household is the same value.
4	Student's AGI assumed to be equal to the sum of the student's and spouse's income earned from work.	Allow Student's AGI to be zero if blank is entered.	The Student's AGI is blank or zero. Tax return status is filed, will file, or blank. Student's income from work or spouse's income from work is positive or negative.
5	Parents' income from Worksheet C assumed to be zero.	Allow Parents' income from Worksheet C to be greater than zero and greater than a fixed percentage of the parents' total income.	Parents' Calculated 2002 Tax Status equals filed. Income from Worksheet C is greater than a fixed percentage of Parents' AGI plus Parents' Total from Worksheet A plus Worksheet B. Parents' Calculated 2002 Tax Status equals non-tax filer. Income from Worksheet C is greater than a fixed percentage of Father's/Stepfather's Income From Work, Mother's/Stepmother's Income From Work, and Parents' Total from Worksheet A plus Worksheet B.

Assumption Overrides (Continued)

Assumption Override	Assumption Made When Override Flag Is Not Present	Results Of Setting Override Before Sending Data Triggering Assumption	Situation
6	Student's income from Worksheet C assumed to be zero.	Allow Student's income from Worksheet C to be greater than zero, and equal or greater than student's total income.	Students Calculated 2002 Tax Status equals filed. Income from Worksheet C is greater or equal to Student's AGI, and Student's Total from Worksheet A plus Worksheet B.

Students Calculated 2002 Tax Status equals non-filer. Income from Worksheet C is greater than or equal to Student's Income Earned From Work, Spouse's Income From Work, and Student's Total from Worksheet A plus Worksheet B. |

DI	Disability
DK	Defaulted, Then Bankrupt, Discharged. (For FFELP, only includes Chapter 13 bankruptcies.)
DL	Defaulted, in Litigation
DN	Defaulted, Then Paid in Full Through Consolidation Loan
DO	Defaulted, Then Bankrupt, Active, Other. (For FFELP, only includes Chapter 13 bankruptcies.)
DP	Defaulted, Then Paid in Full
DR	Defaulted Loan Included in Roll-up Loan
DS	Defaulted, Then Disabled
DT	Defaulted, Collection Terminated
DU	Defaulted, Unresolved
DW	Defaulted, Write-Off
DX	Defaulted, Satisfactory Arrangements, and Six Consecutive Payments
DZ	Defaulted, Six Consecutive Payments, Then Missed Payment
FB	Forbearance
FC	False Certification Discharge
IA	Loan Originated
ID	In School or Grace Period
IG	In Grace Period

NSLDS Loan Current Status Codes (Continued)

Status Code	Status Message
IM	In Military Grace
IP	In Post-Deferment Grace (Perkins only)
OD	Defaulted, Then Bankrupt, Discharged, Other. (For FFELP, only includes Chapter 7, 11, and 12 bankruptcies.)
PC	Paid in Full Through Consolidation Loan
PF	Paid in Full
PM	Presumed Paid in Full
PN	Non-defaulted, Paid in Full Through Consolidation Loan
RF	Refinanced
RP	In Repayment
UA	Temporarily Uninsured – No Default Claim Requested
UB	Temporarily Uninsured – Default Claim Denied
UC	Permanently Uninsured/Unreinsured – No Default Claim Requested (For Perkins, non-defaulted loan purchased by School)
UD	Permanently Uninsured/Unreinsured – Default Claim Denied (For Perkins, defaulted loan purchased by School
UI	Uninsured/Unreinsured
XD	Defaulted, Satisfactory Arrangements, and Six Consecutive Payments

ISIR Comment Codes

For a complete listing of SAR and ISIR codes, please see the companion document to the *2003–2004 EDE Technical Reference* entitled *2003–2004 SAR/ISIR Comment Codes and Text.* This document can be found on the U.S. Department of Education's Student Financial Assistance Download (FSAdownload) Web site located at **FSAdownload.ed.gov** as well as **ifap.ed.gov**.

Printing

Printing ISIRs

Effective in 2002-2003 you were no longer required to print your Institutional Student Information Record (ISIR) output document exactly as the ED provided software, EDExpress, printed it. You can also choose to print additional information on the ISIR. Included in this section is the ISIR Fields Not Printed on the ISIR table. It contains all the ISIR fields that EDExpress does not print on the ISIR. There is an example of an ISIR printed from EDExpress for your reference.

The following information describes how EDExpress prints values. We have provided it to assist the school or state agency in printing the data on a received ISIR.

Printing Assumed Values

"Assumed Values" reflect suppositions the Central Processing System (CPS) has made in determining the applicant's Expected Family Contribution (EFC). CPS makes assumptions when the applicant does not report certain information that is necessary for the EFC calculation or when the applicant reports inconsistent information. (Some unreported information will result in a rejected transaction rather than assumptions.) CPS uses the assumed value when calculating the EFC.

For certain fields, the only assumption CPS ever makes is zero so these assumption fields on the ISIR will contain zeros (for example, ISIR field 244, Assumed Student's U.S. Tax Paid). On the ISIR, EDExpress will print an asterisk (*) to the left of the field title to indicate that the CPS made an assumption and the assumed value must print in place of the reported value.

If a field is both assumed and highlighted, EDExpress would print an asterisk (*) to the left of the field title. Positions 1500 through 1588 of the ISIR all contain CPS assumption fields.

Printing Intermediate EFC Values

An intermediate EFC value is a value that is used during the EFC calculation process. EDExpress will print either the primary or secondary values, not both. The value in the Federal Pell Grant Paid EFC Type determines which set of values are printed.

FAFSA Data Verify Flags

FAFSA Data Verify Flags are new for 2003-2004 and are found on the ISIR (positions 702 through 821) Each FAFSA Data Verify flag byte corresponds to a specific SAR field and indicates fields corrected to the same value on the transaction being corrected. Refer to the Field Name and Position Cross References table in section 4.

If a field was verified as the same data as the transaction being corrected, the FAFSA Data Verify flag will contain a value of 1. A value of 0 signifies that this field was not corrected to the same value and a 2 means the CPS has asked that the field be verified.

EDExpress does not print these flags on the ISIR. These flags were added by request of Third-party Servicers to assist them when doing correction edits.

Printing Correction Flags

Correction Flags on the ISIR (positions 822 through 941 on the ISIR layout) indicate changes to FAFSA data processed by the CPS. Refer to the Field Name and Position Cross References table in section 4.

If a field was corrected on the current transaction, the correction flag will contain a value of 1. If a field was corrected on a previous transaction, the correction flag will contain a value of 2. All other correction flag fields will have a value of zero.

EDExpress will print on the ISIR a pound sign (#) to the right of the field variable that was corrected on the most current transaction, and print an at sign (@) to the right of the field variable that was corrected on a previous transaction.

Correction flags are cumulative (*i.e.,* the flag will be carried on all subsequent transactions).

EDExpress does not actually print the data in this field, rather it uses this data to determine which fields will have a # or @ printed to the right of the field variable to show that the field has been corrected from the original application.

Printing Highlight Flags

Highlight Flags on the ISIR (positions 942 through 1061 on the ISIR layout) indicate data highlighted in bold face on the Student Aid Report (SAR), based on FAFSA data processed by the CPS. Refer to the Field Name and Position Cross References table in section 4. These fields are highlighted and provide a comparison reference between the SAR question number and ISIR field positions.

Any field containing a highlight flag will have a value of 1. All other highlight flag fields have a value of zero.

On the ISIR, EDExpress will print the letter 'h' to the left of the field title that was highlighted. If the field is both highlighted and assumed, an asterisk (*) will print to the left of the field title.

EDExpress does not actually print the data in this field, rather it uses this data to determine which fields will have an 'h' printed to the left of the field title to show that the field was highlighted.

Rejected ISIRs

Applications and corrections submitted to CPS, regardless of the input type or source, can be rejected for incomplete, illogical, or inconsistent data.

An EFC will not be computed for a rejected application transaction. Transactions can be rejected for multiple reasons. Up to seven two-digit reject reason codes are carried on the ISIR.

The reject reason codes and resolution in response to each reject reason are described in the Table of Reject Codes and How to Respond to Each, in section 4, Processing Codes.

Comments

Up to 20 three-digit numbers can appear on the ISIR record, indicating which comments would appear on Part One of a SAR from any paper application processor. Some comments contain critical information regarding the student's status. The comment text that prints on the ISIRs can be found in the *2003-2004 SAR/ISIR Comment Codes and Text* document found on the U.S. Department of Education's Federal Student Aid Download (FSAdownload) Web site located at **FSAdownload.ed.gov** as well as **ifap.ed.gov**.

NSLDS Page

The ISIR record contains NSLDS information. EDExpress only stores the most recent NSLDS transaction. As a result when the ISIR is printed from EDExpress the transaction number for the student's NSLDS record may not match the transaction number of the ISIR being printed. You should always print the NSLDS information with the highest transaction number no matter what the transaction number of the ISIR being printed.

Field Types

Fields can contain one of three types of data: character, numeric (N), or signed numeric (S/N). All 9s in a field indicate that the reported or calculated value is greater than or equal to the value of all 9s. Blanks are allowable in some S/N and N fields.

With S/N fields, the sign is always implied in the right most character of the field. For example, if the Student's Adjusted Gross Income field contains a value of negative 3507, it would appear as 00350P. The following chart explains the conversion of the sign and the number:

Signed Numeric Fields:

{	+0	E	+5	}	-0	N	-5
A	+1	F	+6	J	-1	O	-6
B	+2	G	+7	K	-2	P	-7
C	+3	H	+8	L	-3	Q	-8
D	+4	I	+9	M	-4	R	-9

Note: All signed fields will have an extra byte printed.

Other Field Notes

EDExpress does not print the Subsequent Application Flag on the ISIR. If this field has a value of Y, Subsequent application from student, then an * is printed next to the EFC.

EDExpress does not print the value in the Electronic Federal School Code Indicator field, instead it prints the Federal School Code number associated with the value. For example, if the Electronic Federal School Code Indicator equals 3, EDExpress will print the value for the Federal School Code #3 field.

                                                                 OMB Number: 1845-0008
WILLIAM O'BRIEN                                                        AUGUST 19, 2003
1123 WEST L
IOWA CITY IA 52240                                               EFC      0

006
If you need additional help with your ISIR, contact your school Financial Aid
Administrator (FAA) or the Federal Student Aid Information Center at 1-800-4FED-AID
(1-800-433-3243).  If your address changes, contact your school or call 1-800-4FED-AID to
make the correction on your record.

149
Based on the information we have on record for you, your EFC is 0.  Your school will use
this number to determine what types of aid and how much you are eligible for.  You may be
eligible to receive a Federal Pell Grant and other federal student aid.

143
Your citizenship status has been confirmed by the Immigration and Naturalization Service
(INS) and you meet the citizenship requirements for federal student aid.

137
No relevant information found on NSLDS database.

READ, SIGN, AND DATE

If you are the student, by signing this application you certify that you (1) will use
federal and/or state student financial aid only to pay the cost of attending an
institution of higher education, (2) are not in default on a federal student loan or
have made satisfactory arrangements to repay it, (3) do not owe money back on a
federal student grant or have made satisfactory arrangements to repay it, and (4) will
notify your school if you default on a federal student loan.

If you are the parent or the student, by signing this application you agree, if asked,
to provide information that will verify the accuracy of your completed form. This
information may include your U.S. or state income tax forms. Also, you certify that
you understand that the Secretary of Education has the authority to verify information
reported on this application with the Internal Revenue Service and other Federal
agencies. If you purposely give false or misleading information, you may be fined
$20,000, sent to prison, or both.

Everyone whose information is given on this form should sign below. The student (and
at least one parent, if parent information is given) MUST sign below.

Student _____ Date: _____

Parent _____ Date: _____
